Tour 1) **Lucca**- A medieval city surrounded by a Roman wall. There are tunnel ways through this structure that they used for ammunition storage. It has lovely architecture, sites, churches, shops and trattorias. This is a charming city that has a walk-way of tree lined streets upon the wall. Some like to rent bikes to enjoy the shady lanes. (rental not included) (1:45 min. ride from Bedonia)

Tour 2) **Lake Garda**- One of Italy's most beautiful lakes with panorama to die for, shops, a fortress, ruins of the villa of a famous Roman poet "Catulla". We can walk through these ruins as though we live there. It is over 2000 years old and you can still see the way the rooms were separated and the layout of the mansion. There is also a small museum with artifacts found in the area. (2 hrs. from Bedonia)

Tour 3) **The Cinque Terre**- 5 Small fishing villages set on the mountainside, over-looking the coast. Until the 1900's the only way to get to any of these villages was by foot or by boat, now there are roads and tracks for the train. (1:30 min. from Bedonia)

Portovenere- This small, Port town is moments away from The Cinque Terre. It has all the charm and less confusion. There is a Catholic church that stands on the remains of a Pagan chapel. There is a fortress at the top of the mountain. They offer an amazing panorama of the Mediterranean Sea where Lord Byron swam each day to visit a mistress named Shelly and to write his poetry in the cove (which is how it got its name, "Lord Byron's Cove").

*Tour 4) **Parmesan Cheese factory**- You will walk around this edifice while they are actually making the cheese. Most likely we will be the only ones visiting. It is run by a local family. You will learn the process of aging parmesan and be able to ask questions. At the end of the tour there is a little shop where you have the chance to buy the cheese at exceptional prices. Everything is shrink wrapped, so you can also take it home as a gift or for your own enjoyment. (2 min. from the villa)

Trattoria on the mountain top- This is a hideaway that has become a local hangout over the years. We will enjoy a meal based on the typical food of the area (all homemade). They have a live band that plays the Waltz, Polka, and Tango. The Italians come to dance and play Bocce for their entertainment. Very often there is a chance to challenge them to a game. (30 min. from Bedonia)

*Tour 5) **Veleia/Grazzano Visconti**- This small Roman vacation town, now ruins, was a very important spot for the Romans to visit and relax. Only the wealthy had a home here. You can still see the layout of the town, the temple and the public baths. There is also a tiny museum with artifacts and jewelry found on the premises. Instead, Grazano Visconti is a castle where the Visconti still live. It cannot be visited, but the village that was made in the early 1900's is a charming replica of the medieval times that once surrounded its structure. There are shops and trattorias that play into to the theme of the land. (1:30 min. from Bedonia)

-ATTENTION: The road to the above town is windy and if you suffer motion sickness you will probably be in need of a Dramamine!

*Tour 6) **Langhirano/Torrechiara**- The first stop is where the majority of Prosciutto from Parma is made. It is the perfect spot to cure the Parma Ham, because of the height of the mountains surrounding the area, the amount of sea air that arrives in the location and the altitude. We will see the process of aging the Prosciutto and then have the chance to sit on the terrace and have a lovely meal based on the cured meats of the area, parmesan cheese of the region and wine of the valley. This is a place frequented by Italians and Europeans. Not too many Americans find their way here. (1:30 min. from Bedonia)

*Then it is off to **the Castle of Torrechiara**. (The movie Lady Hawk by Richard Donner was filmed here). This castle was used as a fortress as well as a residence. Therefore, almost every wall or ceiling is covered in frescos. Even though it suffered from the earthquake in 2008, it is still one of the most well preserved fortresses in Italy. The "Camera d'Oro" or the "Golden Room" *1) is one of the most famous erotic chambers in Italy. There is also a small, original village behind the wall of the castle that welcomes a stroll from the castle's visitors. (5 min. from the Prosciutto Factory)

Tour 7) **Verona**- This city has a working open, Roman arena. During the summer they have concerts, ballet and operas performed within its walls. The streets are paved with architecture from different eras and it is very interesting to see the eras change while strolling down the road. It is also said that Shakespeare got his story for Romeo and Juliet from a couple that actually suffered the same fate as his characters. We can see her balcony and her tomb. (2 hrs. from Bedonia)

*Tour 8) **Cremona**- A small city, famous for Torrone (the Christmas candy) and the Stradivarius violin. There is the school where the students learn the mastery of violin making. These violins sell for tens of thousands of dollars and more. They are still being made the way they were made in the past and the students become masters of the craft. The piazza is loaded with culture. There is also the museum of violins. It is a welcome visit to stroll these rooms, read the history and hear the sounds these stringed instruments echo. (1:45 min. from Bedonia)

*Tour 9) **Parma**- A great, little city of about 120,000 people. There is the Basilica, the Duomo, the Farnese Theatre, along with the art gallery that houses a painting of Leonardo da Vinci and Saint Paul's Room which has beautiful frescos of Correggio and the Parmegianino. These spots are all included in this tour package. There is also the possibility of visiting the Theatre Reggio and the Antique Pharmacy, among other things in this whimsical province at an extra cost. Parma also offers great shops and trattorias. (1 hr. from the villa)

Tour 10) **The Italian Riviera**- Santa Margherita, Rapallo or Portofino are some of the most well-known Riviera spots to visit. The Italians love to vacation there and many have a second home in the area. The water is clean and deep blue. What most people find so fascinating though is the fact that the mountains come right out of the sea: so there is a backdrop of small villages nestled in the mountains that add to its

amazing perspective! (1:45 min. from Bedonia)

-ATTENTION: The road to the above town is windy and if you suffer Motion sickness a Dramamine will be in order.

*Tour 11) **Mountain Hike**- We will hike up the local mountain to a spot at the top, where on a clear day, you can see as far as Corsica. The panorama is breath taking! We will have a picnic at the top while we enjoy the view. (30 min. drive, 2-4 hr. hike)

-Choice of hike difficulty: Medium/difficult

*Tour 12) **The Castle in Compiano**- This castle, built in the year 814, and small hamlet is one of the most prestigious of its kind. Well preserved with a view from the top that falls on the mountains and valley below. It has great little cobblestone streets and architecture that stays true to its era. We will visit the village, have the chance to take photos and walk through the castle that was refurbished when the Countess Gambarotta bought the structure in the 1960's. We will then have an aperitif in a little bar in the town or back in Bedonia. (3 min. from the villa)

*Tour 13) **Wine Tasting**- We will see how they make wine and then be escorted to their balcony to enjoy a few variations of their products along with some finger foods, while overlooking the vineyard. There is no hurry here. We can stay as long as we'd like. (1:30 min. from the villa)

Vigoleno- After the wine tasting we will visit this medieval town, in the province of Piacenza. It was constructed in the tenth century. It has kept its charm and character over the years to spite the battles through the ages. This small town behind the walls has wonderful alleyways that add to the charm of this hamlet, considered one of the most beautiful of its kind. (10 min. from the winery)

*Tour 14) **Bardi**- (Departure 9:00) This is a small Medieval village with the castle set on a hill. It is said that Count Dracula stayed here as a guest many years ago. The structure is in good condition. Most of the rooms are not decorated; however, there is the torture chamber that is equipped with many devices used in medieval times. (30 min. from Bedonia)
